

BULLETIN

1-22
April 19, 2022

TO: AGENTS - DRIVERS - OTHERS CONCERNED

SUBJECT: TSA MASK MANDATE END

EFFECTIVE: IMMEDIATELY

On April 18, 2022, the Transportation Security Administration (TSA) rescinded the order requiring face coverings on public transportation and in terminals. In accordance with this change in policy, Indian Trails will no longer require face coverings on our motorcoaches or in our terminals.

Please note that the Centers for Disease Control and Prevention (CDC) continues to recommend that people wear face coverings in indoor public transportation settings. Customers choosing to wear one are still welcomed to do so on our motorcoaches.

While our company policy will no longer require face coverings, please be advised that there may be other public transportation providers connecting to our services that may still require face coverings despite this recent announcement by the TSA. As such, please plan accordingly.
