

Specification Update

The following clarifications are provided regarding the Addendum 2 specification update.

Specification 2.1.2.6 remains the same as the original specification: *“The Customer Mobile App will be free of in-app advertising.”*

Specification 2.1.3.6 is updated as per the following: *“The Validating Mobile App will allow deckhands to record additional information for each sailing including passenger counts, cash fare purchases, and credit card **fare purchases purposes** for consolidated reporting.”*
